

## Midazolam Results

| Lab Sample ID# | Observations                                  | Midazolam (mg/mL) | GC/MS Full Scan Results |
|----------------|---|-------------------|-------------------------|
|                | Punctured/More Liquid than Control            | 0.46              | Midazolam Confirmed     |
|                | Punctured/More Liquid than Control            | 1.90              | Midazolam Confirmed     |
|                | Punctured/Less Liquid than Control            | 3.08              | Midazolam Confirmed     |
|                | Punctured/More Liquid than Control            | 0.28              | Midazolam Confirmed     |
|                | Punctured/More Liquid than Control            | 0.27              | Midazolam Confirmed     |
|                | Punctured/More Liquid than Control            | 2.42              | Midazolam Confirmed     |
|                | Not Punctured/Liquid Level Similar to Control | 5.48              | Midazolam Confirmed     |
|                | Not Punctured/Liquid Level Similar to Control | 5.66              | Midazolam Confirmed     |
|                | Not Punctured/Liquid Level Similar to Control | 5.44              | Midazolam Confirmed     |
|                | Not Punctured/Liquid Level Similar to Control | 5.45              | Midazolam Confirmed     |
|                | Not Punctured/Liquid Level Similar to Control | 5.26              | Midazolam Confirmed     |
